

FRAMEWORK AGREEMENT FOR GOVERNANCE, JUSTICE AND PEACEBUILDING IN CONFLICT AFFECTED ENVIRONMENTS

About Us

Coffey International Development is a global development consultancy specialising in stabilisation and post conflict reconstruction and offering a coherent support capacity for government and donor strategies from the initial emergency response through to transition and development.

Recognising that the key to successful management of DFID framework agreements lies in the ability to draw on a wide base of expertise, often at very short notice, Coffey International Development has brought together a consortium of leading contractors all of which have experience of providing governance, justice and peace building services to HMG agents in conflict affected environments.

Managed by our dedicated in-house Stabilisation and Recovery Services Team, this consortium offers clients 24 hour access to:

- the experience and resources needed to manage multiple requests, rapid candidate screening, selection and mobilisation; and
- the quality control and duty of care standards vital to effective delivery of consultancy services in conflict affected environments.

Our Capability

Our Consortium offers expertise in governance, justice, security sector reform and peacebuilding and combines skills and experience in technical assessments, project and programme design, project implementation, policy formulation, monitoring and evaluation, training and research. It includes leading providers of services in:

Governance Reform and Political Processes

- Working across all components of governance, the Coffey Consortium offers a range of services tailored to conflict-affected environments including: political governance; government accountability and responsiveness; and media capacity building and regulation.
- As current managers of the Governance, Conflict and Social Development Resource

Centre, IDD and Coffey International Development can facilitate effective coordination between the GSDRC (www.gsdr.org) and projects managed through this Framework.

Security Sector Reform

- Our Consortium has extensive experience of security sector reform encompassing: institutional reform of security sector institutions; provision of security sector training and capacity building support for police and security agents; coordination of SSR research; small arms and light weapons control; border control and customs; and civil military cooperation.
- As current managers of the Global Facilitation Network for Security Sector Reform (GFN-SSR), we can draw on HMG best practice resources for security sector reform.

Justice Reform

- Together, the Consortium has recent and ongoing experience of supporting integrated law and justice reform programmes including: justice sector capacity building; institutional strengthening across the criminal justice system; promotion of access to justice; establishment of effective transitional justice; addressing constitutional and legal issues in conflict-affected environments; and promoting the implementation of human rights.

Experience of Peacebuilding

- Peacebuilding entailing the facilitation of dialogue, peace and reconciliation processes, and management of DDR programmes, forms a core competence of consortium members.

Maximising Global Outreach and Local Participation

- Recognising the importance of local participation in, and ownership of stabilisation, our Consortium includes a number of local and regional consulting firms which underscore our ability to mobilise international, local and expatriate nationals at short notice and our commitment to ensuring that interventions are tailored to the local context.

Service Guarantees

Our Framework provides HMG staff with rapid access to a large pool of high quality consultants through a simple call-down contracting mechanism. We handle all contract management and ensure efficient delivery according to specification and following ISO-9001 certified quality standards. The Framework is easy to use and provides:

- proposed teams within ten working days of receipt of request;
- access to a wide range of leading specialists many of whom are security cleared and hostile environments trained;
- quality review of deliverables prior to and following submission and full technical management, including in country support; and
- rigorous duty of care procedures and support.
